INDIAN TERRITORY REDMAN'S GRAVE

TOO MUCH PATERNALISM

many years an Indian agent in Indian Territory. Mr. Bentley, who was con-nected with the Indian service longer than any other agent ever was, believes many years an Indian agent in Indian
Territory. Mr. Bentley, who was connected with the Indian service longer
than any other agent ever was, believes
that the policy of this nation toward its
aborigines has been a progressive crime
of generations. In this he does not disagree with many other people, but Mr.

portant military branch of the training as small arms marksmanship."

Since the increase in facilities for practice at the Naval Academy, through the installation of a large and well equipped rifle range, interest in small arms has increased. Systematic instruction has been carried out and class teams formed. The best shots were selected to form an academy team. agree with many other people, but Mr. Bentley enforces his views with some striking statements.

"Mexico has about 14,000,000 people," he "About 4,000,000 of them are whites, the rest are Indians. They have made it one of the most prosperous countries. Indians are the bone and sinew of Mexico. The country has had little white immigration for a century till in very recent years. It is practically a great Indian republic.

Greatest Living American.

'Mexico's President is the greatest living American today, and he is an Indian. I think it was John W. Foster who recently declared Diaz and the Emperor of Japan the two greatest rulers of the world.

"Mexico shows us what were the pos sibilities of the Indian. It is a mistake to assume that the Indians in Mexico are essentially different from our own. They are not. I know both the American and the Mexican Indians. The difference is just this: that while this country has ruined the Indian by making a ward of him, Mexico has turned him out to hustle for himself, and he has made a good citizen of himself. The policy of the United States has been calculated to degrade the Indian.

Indians Go to Mexico.

"Left to himself and given a chance "Left to himself and given a chance to be a self-respecting citizen, the Indian of Mexico has developed. Made a Government ward, with the Government looking after his business, the United looking looking after his business and offices in all parts of the city; for detailed list send or call at our office.

THOS. J. FISHER & CO., INC. looking after his business, the United States Indian has been ruined. Today the Indians in the Territory want to leave the country and go to Mexico, and they will be found doing it just as fast as they can after the tribal relations are ended. Some of the tribes are now divided between the Territory and Mexco, and in every case the branch that s in this country is anxious to get to Mexico. It is just because Mexico knows

Mexico. It is just because Mexi-how to handle them.
"The Mexican Indian is con-full-blood. There are few of full-blood. States. You can ri full-blood. There are few of them in the United States. You can ride across Indian Territory 225 miles and be lucky if you see a full-blood Indian."

Redman's Future.

Indian affairs have been of unusual interest in Washington this winter beof the approaching dissolution of the tribal relations of the wealthy tribes of Indian Territory. The future of these Indians is a matter of great concern throughout the Southwest. They have been allowed to opportunity to equip themselves with experience and business knowledge for competition with the white man. They are soon to be turned out to hustle for themselves. Many are preparing to go to Mexico, and if they do they fear that the Government will treat them as it has the Kickapoos of Mexico, who are unable to secure the rental of their lanks in Oklahoma. The Indian department wants to force them to return to this country, and this they will not do.

will not do.

Meanwhile there is a great fight in Congress over the heritage of these Indian Territory coal field, which, it is alleged, railroad interests want to absorb at small cost. The President himself has recently been induced to take a hand in this contest in the effort to save the Indians from being entirely despoiled of their great property.

WEST POINT REFUSES TO MEET ANNAPOLIS

Arms Shooting Matches Declined.

NEW YORK, March 20.-The Annaplis small arms team recently sent a hallenge to West Point for a match challenge to West Point for a match with this weapon. Somewhat to the surprise of the naval cadets, the answer was returned from West Point that the soldiers did not have time to spare.

The Army and Navy Journal, speaking of this state of affairs, comments as follows: "This is all the more surprising when it is considered that the West Pointers find time to train for football, baseball, poli, hockey, fencing, theatricals, etc. It would seem that part of the time now devoted to athletic training and amusement might be spared in order to increase the interest in and enthusiasm for such an important military branch of the training as small arms marksmanship."
